

NEWS RELEASE

SB: TSX Venture Exchange

Issued: 65,145,111 shares

Stratabound Announces Financing

Calgary, March 15, 2012 - Stratabound Minerals Corp. (TSX.V:SB) has undertaken, subject to regulatory approval, a private placement of 4,000,000 common shares at \$0.05 per share for gross proceeds of \$200,000 and 5,000,000 flow-through shares at \$0.08 per share for gross proceeds of \$400,000. Insiders will participate for 50% and 30% of the placements, respectively.

The proceeds from the common share issue will be used for registering permit applications required to move the company's 100%-owned, Captain North Extension (CNE) lead-zinc-silver, open-pit deposit in New Brunswick towards production, and for general corporate purposes. Registration documents for the project are nearing completion, and will be submitted shortly for screening by the Provincial and Federal mining and environmental regulatory bodies.

The proceeds from the flow-through share issue will be used primarily for exploration of Stratabound's wholly-owned and optioned claims adjoining the CNE Mining Lease for both lead-zinc-silver and copper-gold mineralization.

About Stratabound Minerals Corp.

Stratabound is a Canadian natural resource company exploring and developing its gold and base metal properties in eastern Canada. It is currently focused on bringing the CNE deposit into production, while continuing to build a resource base in the infrastructure-rich, world-class Bathurst Mining District of northern New Brunswick.
