

## **Stratabound Announces Termination of Discussions for a Potential Acquisition**

June 22, 2017, Toronto: Stratabound Minerals Corp. (the "Company" or "Stratabound") (TSX-V: SB) announces that it has terminated discussions with respect to the potential acquisition described in the Company's press release issued April 3, 2017.

The Company was successful in assembling an investor group desiring to provide the necessary financing to complete the acquisition and support the management team's operating plan; however, the Company and the investor group were not able to satisfy the seller's timing requirements with respect to the completion of due diligence and closing.

Although this is a disappointment for the Company, Stratabound remains committed to acquiring a mining project that will provide a basis for transitioning from an exploration stage company to an operating company in the near term, and the continuing support of the investor group will aid in achieving that goal.

### About Stratabound Minerals Corp.

Stratabound is a public company currently focused on evaluating resource acquisition opportunities to find a "keystone" project for the Company. The Company is evaluating producing or advanced stage development stage mineral resource opportunities principally in the Americas.
